I'm going to make a mini comic with Vern and Lettuce!

1. Design 2 characters using these shapes:

2. Name: ____________________________________________
   Name: ____________________________________________

3. 3 words to describe them:
   ___________________________________________________
   ___________________________________________________
   ___________________________________________________

4. 1 more thing for the mix:
   ___________________________________________________

5. Give your story a title:
   ___________________________________________________

6. Design a cover - use cool lettering!

7. You have 7 more pages to tell your story...
   GO CRAZY!

8. When you're done, slap it on the copier and make minis for everyone!

Mini Comic Planning!

Use this page to think about what you might put on your covers + pages!

Sometimes you can wrap a picture around both covers!

Fold in half 3 times, crease folds hard

Open

Cut on fold between 2 middle boxes (use craft knife or scissors)

Fold in half the long way

Hold on sides, push together to make a diamond-shaped space in the middle

Push to middle

Push middle flaps to one side

Fold last flap around so it's a book shape

Tidy up the pages and crease edges
